**World Championship Landyachting
Rada Tilly, Argentina, Feb 2008**

F.I.S.L.Y. President's word

On the eve of the 11th World Championships, it's an honour to present you the 17th edition of **Fisly News**. In this edition we will focus on three main topics: the world championships, the new constitution of FISLY and its history.

This newsletter is beside our website one of our communication tools. But we have to improve it and for this reason we need your support. For each edition it is difficult to obtain news from the different federations and clubs all over the world. By this way we thank all sailors and people who assume the responsibility for their federation or club to contribute to the Fisly newsletters. But do not wait till the last moment to send your articles about major land sailing events : do it when you have news to share with other sailors. When we have sufficient content an extra edition can even be considered every 6 months to publish on our website. The printed version will be published once a year. Also a limited number of pictures can be joined to each article.

2007 was a milestone in the **history** of our international federation. Inside this edition you can read more about the history of FISLY.

Championships

FISLY is conscious of the fact that it requires an exceptional effort of European sailors to go overseas. On the other hand Europeans should consider that for sailors from North and South America, Australia and New Zealand, Africa and in the future Asia (India) it is also a major investment to participate in world championships on European beaches. Nevertheless, for the future we are thinking of yearly championships on each continent North and South America, New Zealand & Australia and Africa. FISLY is convinced that in the long term this will contribute to the world wide expansion of our sport. The final goal is to give access to the Olympic games, it might be a dream... why not (...)? Maybe the formula of championships will have to be adapted in the

future, after evaluation.

Constitution

To improve the governance of FISLY in favour of the development of land yachting, a new constitution for FISLY was edited and finally approved in Le Touquet (France) after 4 years of discussion by the council and general assembly. The founding act was drawn by the notary on 25th of January 2007 in Leuven (Belgium). By this day FISLY is recognised as an International non profit Association (by Belgian law) by Royal Act on proposal of the Belgian Minister of Justice on 23rd of March 2007 and this was published in the Belgian State Journal.

Since the foundation of Fisly 44 years ago, land yachting has developed and become an international sport. There are clubs and national federations in Europe, North America, South America, New Zealand, Australia and also in Africa (Tunisia, and Djibouti). India aswell is interested in our sport.

This whole evolution has an impact on the new constitution: there are full members, associated members and corresponding members. All those members have a voting right in the GA, with a maximum of 3 votes for full members till a minimum of 1 vote for the corresponding members.

The constitution also introduces also the concept of regions in the world such Europe, America, Australia and New Zealand... The goal of creating regions is to promote closer relationships and activities within each region. Corresponding members also have the right to attend to the GA. In the Fisly council one counsellor can be nominated by the associated members.

Today we have the 11th "Campeonato Mundial de Carrovelismo" in Patagonia – Argentina. This is a new milestone for land yachting. This championship is a key event for the promotion of our sport in Argentina and South America.

F.I.S.L.Y. President's word

For this reason Fisly decided not to organise a European championship in 2008 for cl 2, 3, Std, 5 and Promo. /..

The 45th European Championship will be organised in Germany (St. Peter Ording) and in 2010 there is the 12th World Championship in Belgium (De Panne) ; the 13th WC will be in France (Cherrueix ; month of August).

It is the first time that a World Championship is organised in South America. We are aware of the fact that for the land yacht club in Rada Tilly, it has been a big engagement to achieve this project. Due to a team with very motivated members we now have the opportunity to sail on the special beach of Hoylake. On behalf of the whole international land yacht community we thank all people who made this 11th "Campeonato Mundial de Carrovelismo" possible. We are convinced that this championship will contribute tot the promotion of our sport in Argentina.

We thank the organisers for their effort and their hospitality. We thank the regional

government and the participating town for the financial and logistic support. We thank the commercial sponsors for their efforts, because without them such an event could not be organised. And finally we thank the land sailors because anyhow most important are you, coming from all over the world to participate in this World Championship. We hope you enjoy a sportive championship and we wish the best of you will win in the spirit of the Olympic idea. Fair winds !

FISLY 1962—2007

45 years development

Landyachting originated as recreation and competition in De Panne (Belgium) at the turn of the century (1898). From De Panne and other coast places this sport extended to France, Great Britain and Germany. The first international races were organised on the North Sea beaches of France: Harelbot (1911) and Berck (1913). World war I however stopped the development and few activities are recorded in the post war period. After World war II and in the early fifties, landyachting emerged again and soon landyachting was big enough to organise international races again.

In 1958 a first “reunion” was organised in De Panne with Belgian, French and English pilots. Two years later the first “Criterium Europae” for the European Championships was organised in De Panne with pilots from Belgium, Germany, England and France attending. This was followed by an “International week” in St. Peter Ording and in De Panne. The second “criterium Europae” took place in Lytham St. Annes (England) in 1962 and after several meetings FISLY was founded by F. Gerlach (Germany), R. Dawson (England), R. Nyssens (Belgium), J Gimel (France). The objects of the FISLY as proposed by its first president were to elaborate and develop racing and sailing rules ; to establish an international race calendar and structure of the International federation.

Robert (Bob) Nyssens was elected as first FISLY President and assumed this presidency till 1978. He was succeeded by J. Gimmel, Len Warren and Irvin Campbell.

In 1988 at the Fisly General Assembly in Borkum, Germany - after 2 years of work by Bertrand Lambert and Thomas Leithof - the International Sailing and Racing Rules

(I.S.A.R.R.) were accepted. This ISARR is the bible to define the classes of yachts, and manage local and international landyacht racing with specific rules for European & World championships. Some sandyacht classes (Class 1) disappeared over the last 45 years and other new classes like Standart (1990), 7 and 8 and in a short future Blokart? Evolution of sandyacht classes will never stop due to new materials and technology.

Europe, with France, Belgium, Great-Britain, Germany and The Netherlands is still the leading continent for landyachting. These countries are every now and again guest country for the organisation of the European and World Championships. Also in other European countries such as Sweden, Ireland, Denmark, Switzerland, Spain, Italy, Czech Republic and Poland landyacht pilots are active.

From Europe Landyachting spread out over the whole world and clubs were founded in North America (U.S.), South America (Argentina, Brazil, Mexico, Chili), the Middle East (Oman, Qatar), Africa (Djibouti, Tunesia), Australia and New Zealand. Most of these countries are member of FISLY. Since february 2007, Fisly is an International non profit organisation conform Belgian Law.

World championships are organised once in two years. Each year the European championship is organised by another European country (France, Great-Britain, The Netherlands, Belgium and Germany). When a world championship takes place outside the European continent, no European Championship is organized that same year. Since the creation of FISLY, 44 European and 11 World Championships

FISLY 1962—2007

45 years development

have been organised. The aim of the rotation of the WC (1 out of 3 outside Europe) is to promote our sport in different continents.

But beside WC and EC's , other big international races like the 6 hours of Berck (45 years old) and Bleriot Cup in Le Touquet (France), the Pflingstenregatta in St Peter Ording, Germany), Potjesregatta and Krabrally in De Panne, Belgium, Brandaris Trophy in Terschelling Netherlands, and The Americas Cup; Wirral in Hoylake England, The Black rock dessert race and Pacrim Events (USA, Australia and New Zealand) are very popular in the landyacht community.

Our final goal is to become an Olympic sport.

By this means, I thank all men and women who have achieved in the competence to develop

our sport, organise races and manage an estimated 150 landyacht clubs and 47 landyacht schools during the last 45 years. Beside the large number of volunteers, a rising number of people have an employment in landyachting today. (see also article on "Survey of landyachting practice in the World")

Eric Engelbrecht
President of Fisly.

SURVEY OF LAND YACHT PRACTICE IN THE WORLD

For the first time in landyachting history a survey has been done by Fisly. You can find the first results below. Each Fisly member has been invited to fill in a form for this survey. We are aware that the work is not finished and we invite everyone to add or correct the figures of the overview table.

You will see that pro year 203000 people visit the 47 landyacht schools ; 264 races are organised; 772 pilots sail in competition and 2835 people are leisure sailing pilots.

ARGENTINA

A dream has been achieved

After many “laps”, finally, our time has arrived. From the acceptance of FISLY as candidate for the WC in 2003, the Landyachting grow strongly in Argentina, specially in Class Promo.

Our last experience as an Official Team in France 2006 was a very good jump for to the public relationship of the APC in the national order. The friendly assistance of the French organizers was a very good opportunity for us to learn more about organization. The National Authorities, as Secretary of Sport, Secretary of Tourism, and also the Governor and Province Authorities, recognize the effort of our Club in the way to promote this amateur sport, including the Touristic side of the activity. The good job of the Club and the special support of the Sponsors made this dream come true.

This WC will be one of the biggest things in Comodoro Rivadavia, after the petroleum discover in 1907.

130 pilots, of more than 15 nations, will be based in the special environment of Patagonia, at the most important city in the south of Argentina. The expectative is very high between the people of the town, waiting for the competition.

The Organization Team, is taking care all the details for the visitors, adjusting the sport things in the beach and the finest tips for the tourism during the championship.

APC has planned the Championship with the participation of many sport institutions and clubs of the City, to complete a full organization.

The containers from New Zealand and European countries arrived in time. More than 70 landyachts sailed on the ocean, amazing !
